

Levente Torma

FULL-STACK WEB DEVELOPER

Full-stack developer with Laravel backend and React/Next.js/Livewire frontend experience, building production web systems for several years.

EXPERIENCE

Merkit (formerly Moon, then Hyperdot)

— Full-Stack Developer

2022.08 – 2026.07

Budapest, Hungary

- Worked with the same team since August 2022, initially alongside my studies and full-time from November 2023.
- Worked on Laravel-based backends: REST/JSON APIs, Eloquent, authorization, payments, invoicing, queues.
- On the frontend I worked with React + Next.js, Livewire, and the Vue + Inertia stack.
- Worked on numerous integrations: szamlazz.hu, GP webpay, Klaviyo, Wallet passes, AWS S3; using Docker and GitLab CI.

SELECTED PROJECTS

Premio - event venue marketplace

Multi-tenant marketplace where partners list venues and related services, and visitors can request quotes.

Laravel · Livewire · React + TS · MySQL

Budapestinfo - tourism city card

Online sales and discount-management platform for the Budapest city card, with digital and physical cards, partner discounts and B2B sales.

Laravel · Laravel Nova · Vue + Inertia

NetPrinter - custom printed products webshop

Webshop for custom printable products where customers can position their own images on the selected products.

Laravel · Next.js · React + TS · NX

Ki mit tube - video talent contest

Talent-contest platform built on video submissions and audience voting, with an admin and moderation interface.

Next.js · React + TS · Laravel

Radaway - sanitaryware manufacturer catalogue

Product catalogue and website for a sanitaryware manufacturer, with automated product sync from an external system.

Laravel · Laravel Nova · Blade · MySQL

EDUCATION

Eötvös Loránd University (ELTE)

2020 – 2023

BSc in Computer Science — Budapest, Hungary
